

Hopkins Emergency Response Organization (HERO)

Emergency Vehicle Operator Completion Packet for EXPERIENCED Drivers

*You must have passed an Emergency Vehicles Operations Course in the past outside of HERO and completed at least 50 hours of Emergency Driving to be considered an experienced driver. Subject to verification by the Equipment Officer.

Objective	Date	Signature of Completion
Be at least 18 years of age by the start of EVOC		
Provide a copy of Current Driving Record		
Provide proof of prior EVOC training		
Phase I: EVOC Lecture (MD Law Portion)		
Phase II: Non-Emergency Driving		
Phase III: Car Orientation		

By signing here both parties are agreeing that the candidate named below has successfully completed the Driver Training as outlined in this packet and in the SOG. I, the trainee, certify that I have demonstrated adequate knowledge of skills, procedures, policies, protocols, and all other aspects expected of an Emergency Driver for the Johns Hopkins Emergency Response Organization (HERO).

PHASE III Car Orientation

At any time after the cone course is completed, the trainee may complete car orientation under the supervision of the Equipment Officer. The car orientation will include an overview of the car's features and equipment, and the trainee will be expected to complete a brief session of routine driving on Homewood campus under the supervision of the Equipment Officer. When phases I, II, and IV are completed, the trainee is cleared to operate the car.
